

10 Umbrella Actions

- 1) Look after woodlands – protect them and manage well.*
- 2) Expand woodland cover especially to buffer and connect existing woodlands.*
- 3) Ensure best management of remnant acid grassland/ heath at Gamlingay Cinques and other species rich grasslands*
- 4) Enhance the residential and other built areas of the parish for nature. Adopt a target perhaps aiming for 20% canopy cover*
- 5) Enhance management of water courses to create nature rich corridors through the landscape.*

10 Umbrella Actions

- 6) *Enhance connectivity through arable farmland e.g. through restoration hedgerows*
- 7) *Protect village greenspace. Enhance residential and built-up areas for nature. Plant more trees- adopt a target-20% canopy cover*
- 8) *Reduce light pollution from street lighting and private residential lighting.*
- 9) *Create more opportunities for our community to gather and go great things for nature*
- 10) *Create more opportunities for people to access and enjoy nature e.g through creation of more footpaths to provide circular routes to explore the parish*
